# CULTIVATING A CREATIVE COMMUNITY BY BLURRING THE LINES OF LIVE AND WORK

Navy Yard Charleston has transformed Storehouse Nine into Charleston's first true live work destination for designers, makers, and creative entrepreneurs. Purposefully designed to support the way creative businesses operate, the building brings together residential, studio, workshop, and retail environments under one roof. Backed by Jamestown's track record of creating some of the country's most dynamic mixed use destinations, including Chelsea Market, Ponce City Market, and Industry City, Storehouse Nine reflects a long term commitment to cultivating places where creative businesses can thrive, collaborate, and grow.
